HOIST LAZER SERIES

ADVANTAGES

► **HEAVY DUTY PLANETARY DRIVE AXLE**

for maximum durability

► **LOW BATTERY LIFT INTERRUPT**

protects against low voltage damage

► **STANDARD HOOD-MOUNTED
HYDRAULIC CONTROLS**

for operator convenience

► **LOAD SENSING HYDRAULIC SYSTEM**

delivers the power you depend on when you need it

► **U.S. PARTS AND COMPONENTS
SOURCING**

means faster service and lower lead times

► **72/80V ELECTRICAL SYSTEM**

offers high-powered electric performance with no carbon emissions

► **AC DRIVE AND PUMP MOTORS**

provide superior efficiency and performance, longer runtimes, and smooth, quiet operation

► **7" TFT TOUCHSCREEN DISPLAY**

puts ultimate customization, advanced diagnostics, and pertinent forklift information right at your fingertips

► **EASY SERVICE ACCESS**

thanks to hydraulic multi-gauge and easy-access panels and filters

► **HIGH VISIBILITY**

provided to operators by two-stage wide-view mast

15000–40000^{LB.}

RIDE THE LIGHTNING

HOIST LAZER SERIES FORKLIFTS

Think real power needs an IC engine? Think again. The Lazer Series offers the same combination of strength and maneuverability, but on an electric platform. Powered by AC drive and pump motors, the Lazer Series delivers optimal efficiency and performance while minimizing your downtime. The biggest tasks in automotive, forging, and paper industries have met their match.

BUILT HEAVY DUTY

A rigid welded chassis with heavy steel cross supports. Impact resistant side thrusters. Up to 80 volts of power. And a protection system to back up all that power. This heavy duty powerhouse is built to last from the sturdy overhead guard all the way to the durable two-coat rust-inhibiting paint.

ENGINEERED FOR OPERATORS

Advanced ergonomics keep operators comfortable while they work. Easily viewed gauges and auxiliary controls make monitoring performance intuitive and convenient. Add in a standard wide-view mast that ensures a wide field of operator vision, and you have a comfortably powerful machine.

POWER AT YOUR FINGERTIPS

All that power needs protection. A low battery lift interrupt guards the electrical system and motors from low voltage damage. Load-sensing on-demand power steering ensures optimal hydraulic system efficiency. Standard hood-mounted hydraulic controls provide convenient, comfortable control of all functions for operators. And the high-visibility design helps keep operators aware of their surroundings while in operation.

LEAN AND MEAN

Prepare to have your versatility expectations blown away. Power. Durability. All the high standards and rugged dependability you've come to expect from Hoist with the compact maneuverability for indoor operations. This reliable electric-powered machine will stand up to any indoor challenges you throw at it. Strength you can depend on with Hoist.

AN INVESTMENT THAT PAYS YOU BACK

Adding a new forklift to your fleet should be an investment that lasts. Hoist demands the best for its customers. It's a forklift with better components and meticulously planned integrated systems that work together to deliver intuitive, dependable performance day after day. Hoist forklifts don't often require service. But when they do, it's fast and easy — by design. And superior Hoist quality means more productivity over the lifecycle of your forklift, along with lower repair costs. Higher residual value is another bonus.

SAFETY COMES STANDARD

At Hoist we know people are your greatest asset. That's why the Lazer Series includes all the necessary features to help keep your people safe. A wide-view mast. A high operator field of vision. An operator presence sensing system. All come together to give the safe operation you've come to expect from Hoist.
